I am currently working in the software industry as a software engineer. I have been working in this field for the past three years. I started my career as a software engineer at a small company. After a year, I moved to a larger company where I worked on more complex projects. I have a strong background in SAS and Python. I am also a good communicator and have good leadership skills. I have a good understanding of the software development life cycle and can work well in a team.
